Soft Skills: Communication, Problem solving, Teamwork, Adaptability

Projects

SwapNest (Buy and sell second-hand products) [Go live](#) • [Client code](#) • [Server code](#)

SwapNest is a modern web platform designed to simplify the exchange of second-hand goods. This repository houses the frontend of SwapNest, crafted with contemporary web technologies to deliver an intuitive, fast, and user-friendly marketplace experience.

- Product Listings - Users can list, browse, and purchase second-hand products.
- Category-Based Navigation - Browse products by category for quick access.
- Real-Time Search & Filters - Advanced search and filtering for better discovery.

Papyrus (E-commerce platform for stationery products) [Go live](#) • [Client code](#) • [Server code](#)

Papyrus is an e-commerce platform for stationery products. It allows users to browse a wide range of stationery items, add them to the cart, and make secure payments. Users can manage their profiles and view order history, while admins can manage products, orders, and users. Papyrus aims to provide a smooth and efficient online stationery shopping experience.

- Browse and view all available stationery products.
- Add products to the cart and manage cart items.
- Checkout and make payments using ShurjoPay.
